Allowable Subject Matter

3. Claims 1, 3 and 5-12 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As to claims 1 and 3, none of the prior art teach or fairly suggest the limitations of removing perspective of left and right images at a first and second base surface which have a predetermined angle with respect to the each other, in combination with the other limitations of the claims. The prior art of Aubrey, already of record, discloses a method of fabricating printed material for stereoscopic viewing comprising removing perspective of left and right images at a first base surface in the images. However, Aubrey does not teach or fairly suggest a second base surface having a predetermined angle with respect to a first base surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
